Do Not Release - Withhold under FOIA exemption five

Steve,

I just spoke with Alan about this. He walked me through how there really is NO buffer whatsoever, at least for much of the coastal/western portion of Oregon. Note the reference to "Table 5" in section (6)—see 1st screenshot. Note that table is not included in the LexisNexis document you attached. However, I found Table 5 online and it says "No retention required" for Coast Range and Western Cascades. See 2nd screenshot and top of p. 51 in the attached PDF. Nevertheless, these weak buffers do apply to portions of Oregon's 6217 management area (South Coast, Interior, & Siskiyou). See the map on p. 48.
